

Since the beginning of the COVID-19 pandemic, the health and safety of the congregation has been the top priority for our staff and Session. We have prayerfully discerned how to bring about a safe return to full in-person worship, taking into consideration guidance from the CDC and the state.

In light of the recent decline in infection rates and widespread vaccination in our area, we will implement new protocols for in-person worship on **Sunday, June 6**.

- **Registration is no longer required for Sunday worship.**
- **Mask wearing is no longer required. *However, anyone who is not vaccinated, or simply feels more comfortable wearing a mask during this time of transition, is encouraged to do so.***
- **All pews/seats will be open.**
- **You may sing!**
- **Please continue to avoid shaking hands during the passing of the peace.**
- **Lemonade will be served out on the plaza after the service.**

If you're not yet comfortable worshipping in person, or if you prefer to watch the livestream, that's okay! God doesn't live in the sanctuary; God is wherever YOU are.

During this time of transition, we ask for your compassion, understanding, patience and respect. We all have different perspectives on "reopening." Some of us are raring to go, others are understandably hesitant. But we're all united in our deep and abiding faith in Jesus Christ. So, please, let's keep that in mind!
